SWAMP THINGS

TIMES Square has been cleaned up, but the swamp across the river in New Jersey is still wild and rough. Joshua Lutz's coffee-table photo book, "Meadowlands" (\$50 from PowerHouse), features grim photos, including a body in a swamp, a rusting auto graveyard, an oil-slicked truck depot, and a pink-skirted hooker doing business. The 32-acre home of the Giants and Jets "evokes morbid fantasies of Mafia hits and buried remains," according to Lutz.
